

of that, Senator Warner introduced a bill so that this concept would have a public hearing. The bill is numbered 861 introduced yesterday. I would, therefore, like to strike the Barnett amendment since that legislative possibility will be considered under LB 861 and given full public hearing. Senator Barnett, I believe, is in agreement with that, and rather than having him called upon, I would ask Senator Barnett if he is in agreement with this concept and if he has anything else he would like to offer at this time.

SENATOR BARNETT: Okay. Senator Beretuer, I did have something I wanted to say because I think it is important to the Lincoln delegation down here that they understand and so should the body understand that the City of Lincoln comes in here and asks for amendments to be put on bills. They ask the members of the Lincoln delegation to do this for them and that is what I done and then a day later they come back and say remove them. So I think it is important that the body knows down here that we try to do what the city council and the mayor's office wish for us to do. That is why we have to apologize or I have to apologize for creating any problem that we might have had with this piece of legislation or with this amendment because it wasn't over a week ago that the City of Lincoln wanted it. Now they are asking for it to be taken off. Somebody put a thorn in their side with the idea that they probably should take this to a public hearing and they have asked for us to do this and I certainly did not want to hurt your piece of legislation, as I told you when I put it on there. So I hope the body goes along with you and takes it off of there right now. And the next time we have an amendment from the City of Lincoln, we will try to explain it and hope that they are in agreement to keep it on after they have asked for it.

SENATOR BEREUTER: Thank you, Senator Barnett. I appreciate your problems you have in this regard. At times, we all have those problems. I do move for the adoption of the amendment, Mr. President. Mr. President, I do move for the adoption of the amendment.

PRESIDENT: Any further discussion? The question is the adoption of Senator Bereuter's amendment to LB 186. Record your vote. Have you all voted? Record.

CLERK: 26 ayes, 0 nays on the adoption of the Bereuter amendment, Mr. President.

PRESIDENT: It is adopted.

CLERK: Mr. President, I now have another amendment offered by Senator Bereuter. I move to amend LB 186 on Select File by deleting the original Section 13 as amended.

SENATOR BEREUTER: Thank you, Mr. President. LB, section 13 of LB 186 related to the sunshine requirements. They have been substantially amended as you know. I am asking for your concurrence in deletion of the entire section 13 with the understanding that I already have placed in the Clerk's file amendments to take those, that section 13 as amended, and place it into LB 210. I have cleared that with the introducer of LB 210. He is not necessarily in agreement with those amendments but his bill relates strictly
